OSD Audio Joins High-End Audio Manufacturers at the 2020 Online Hi-Fi Summit

The Southern California-based home audio manufacturer will showcase its latest digital streaming module, 16-channel digital power amplifier, and top-selling patio speakers at the virtual online event.

[BREA, CA – June 26, 2020] OSD Audio, an Audio Gear Group brand, will be joining dozens of distinguished high-end audio brands at the 2020 Hi-Fi Summit being held online from June 26th to June 30th. The five-day virtual event allows audiophiles from around the world to get a sneak peek at the latest two-channel audio speakers and source equipment, home theater systems, and whole-house audio systems and directly chat with brand owners and influencers. Attendees can also ask questions before purchasing directly from the Summit platform at show-special prices.

"When we heard about this online event, we knew we had to participate," says Dave Chai, founder and CEO of OSD Audio. "It gives OSD Audio a chance to show off products that appeal to our audiophile customers and gives us an opportunity to connect with new and existing OSD Audio fans."

The three products that OSD Audio will highlight at the Summit will be the NERO STREAM 200W Wireless Hi-Fi DAC Class D Stereo Power Amplifier with Bluetooth® and Wi-Fi, the AP650 6.5" 150W 2-way high definition outdoor patio   speaker pair, and the mighty MX1680 8 Zone 16-Channel 80W per channel digital power amplifier for distributed audio and home theater systems. OSD Audio will also offer special show pricing and a contest giveaways of some of its most popular outdoor speakers, just in time for summer.
